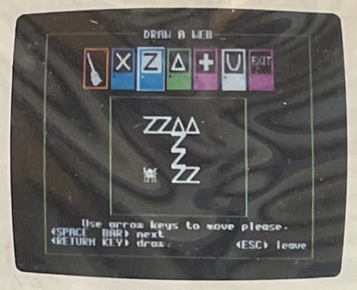
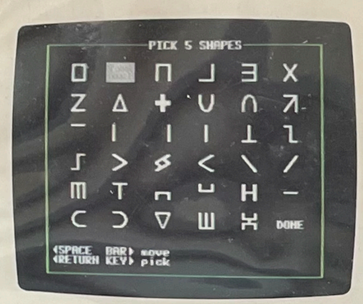
LOGIC BUILDERS™





Three web-weaving games that challenge your memory and imagination.

Draw A Web
You're in charge of a construction crew of five friendly spiders. They'll weave any kind of patterns you want them to, so let your imagination go wild. Once you've designed a web that satisfies you, save it, and challenge your friends to weave one just like it.

Match A Web
This time you and your spider crew have to duplicate a master web. You'll have to plan carefully to make an exact copy in as few moves as possible.

Recall A Web
You'll find this game extra challenging. The master web disappears and you've got to duplicate it from memory. To make it even more difficult, your spiders have to race against time to finish the job. Luckily, you're allowed a few sneak peeks.

Learning Opportunities

LOGIC BUILDERS reinforces problem-solving and planning skills. It also sharpens memory, attention to detail, and pattern recognition.

Contents: 1 two-sided disk, 1 handbook, 1 sketch pad.
